

November 2018

First announcement for the 10th International Conference on Children's Health and the Environment

We are writing to request your participation of the 10th International Conference on Children's Health and the Environment, to be held **22-24 April 2020** , at the OBA congress centre in Amsterdam, the Netherlands.

The conference has the following objectives:

- to provide an international forum for the latest research findings in children's environmental health
- to define the relationship between environmental contaminants and children's health
- to strengthen the importance of prenatal exposure to environmental factors on pregnancy outcome and children's health
- to identify opportunities to minimize childhood prenatal and postnatal exposure to environmental contaminants
- to provide insight in the activities in the field of science and policy interface
- to build a platform of knowledge at an international level
- to work together in a multidisciplinary way
- to develop a greater awareness among health professionals about children's health and the environment; and
- to initiate future directions in research in the field of children's environmental health.

Attached is the flyer for the meeting. The call for abstracts will follow in 2019. You may request to be contacted personally and to be send the abstract form and registration form if you received this announcement via another way than your own email address.

Send an email to: info@inchenetwork.net

Yours sincerely,

Peter van den Hazel, MD, MPH, - President, INCHES
